THE work done by the Woman's Liberty Loan Organization in the Second Federal Reserve District during the Fourth Campaign has produced many features which will be of much interest to its members, who are themselves perhaps not entirely aware of the vast amount of intensive work which has been done throughout the District. The organization has increased in size very materially since the Third Campaign. At that time there were 70 counties organized with county chairmen; 1,310 local committees, with approximately 18,500 workers. For this Campaign there was a county chairman in each of the 72 counties with 1,861 local committees and, roughly speaking, 35,000 workers. A special attempt was made to get a report of the actual number of individual subscriptions secured through this organization, the denominations of the bonds as well as the financial total. As a result of this effort, reports from the 1,861 committees showed $203,383,850 of bonds sold, of which amount $194,594,782 represented 583,000 individual subscriptions. Unfortunately it was impossible to get a report of the number of bonds represented by the remaining $8,789,068. As far as can be estimated from the reports received 21,000 subscriptions only were in amounts of $500 and over, of this number 1,500 only were in amounts in excess of $1,000. Approximately 23% of the New York State quota, exclusive of New York City; 7% of the New York City quota; 18% of the Northern New Jersey; and 25% of Fairfield County, Connecticut, quotas were raised by the Woman's Committees. Or in other words, this organization, as nearly as can be judged, is responsible for 16% of the number of sales and 10% of the amount sold in this District. These figures speak for themselves of the detail work done by the organization, and are a record of valuable service of which every member may be justly proud.

METROPOLITAN DISTRICT

MRS. COURTLANDT D. BARNES, *Chairman*

The report of the Woman's Liberty Loan Committee in the Metropolitan District, which comprises the boroughs of Manhattan, Brooklyn and the Bronx, shows a financial result so small in comparison to the quota of the district that it would seem to need a brief word of explanation. The Liberty Loan Organization, operating under the direction of the Central Committee, is so intensively and technically worked out in each of its branches that all the large subscriptions are covered and it would only mean a needless competition and duplication for the Woman's Committee to attempt a share in this part of the work. Consequently, it has devoted itself very largely to work of propaganda and to supplying trained volunteers to supplement the activities of the Liberty Loan Organization. This policy has resulted in obtaining a large number of subscriptions rather than a large amount subscribed.
